BUSINESSES
Growth through digital opportunities

COMMUNITIES
Inclusion, development and stronger societies

TRUST
Confidence through consistent delivery

NETWORK EXCELLENCE
Reliable, resilient and future-ready infrastructure

EXPERIENCE
Seamless, dependable and customer-focused services

HUMAN IMPACT
The ultimate purpose of connectivity

1 MY LEADERSHIP OWNERSHIP

Across my network operations and transformation leadership roles, I take ownership of connecting technical performance to the experience and value it ultimately creates for customers, businesses and communities. My accountability extends beyond infrastructure availability. I align people, technology, operations, investment and partners around reliable service—driving performance, challenging service gaps, prioritizing improvement and ensuring that network outcomes translate into meaningful customer and business value.

MY LEADERSHIP ROLE

- Connect strategy to experience
- Align the end-to-end network
- Own service performance
- Mobilize improvement
- Challenge performance gaps
- Validate the outcome
- Build accountability
- Empower teams and partners

THE VALUE CREATION CHAIN — TURNING NETWORK PERFORMANCE INTO A BETTER, MORE CONNECTED TOMORROW

NETWORK PERFORMANCE	SERVICE EXPERIENCE	CUSTOMER EXPERIENCE	TRUST	BUSINESS VALUE	HUMAN IMPACT
Reliable infrastructure you can count on	Consistent, accessible and responsive services	Seamless and dependable services that meet real needs	Confidence earned through reliability	Retention, efficiency and sustainable growth	Stronger communities, greater opportunities and improved quality of life

2 BEYOND CONNECTIVITY

- More than coverage and capacity.
- Enabling communication, work, learning, healthcare and services.
- Connecting people to what matters.

"A network is valuable when it improves the real lives of real people."

3 A CUSTOMER-CENTRED OPERATING MODEL

"It is not enough to restore service. We must prevent recurrence and make the experience better than before."

4 ONE NETWORK, ONE EXPERIENCE

- RAN, transmission, fibre, core.
- Power and supporting infrastructure.
- Platforms, devices and operations.
- End-to-end accountability.
- The customer experiences one service.

"Customers experience a service, not the individual network elements behind it."

5 CREATING MEANINGFUL OUTCOMES

- More people connected.
- More businesses enabled.
- Greater digital inclusion.
- Stronger economic opportunities.
- Improved quality of life.

"Connectivity is not the end. it is the beginning of greater possibilities."

6 LEADERSHIP THAT CREATES VALUE

- Strategic alignment with customer and business needs.
- Evidence-based decisions.
- Cross-functional collaboration.
- Resource prioritization.
- Continuous improvement.
- People development.
- Turning technical achievement into human progress.

"Leadership becomes transformational when technology creates meaningful human progress."

7 A LASTING LEGACY

- People empowered.
- Communities strengthened.
- Businesses transformed.
- Sustainable growth.
- A more inclusive future for generations.

"Beyond connectivity lies our greater responsibility— to transform human experiences, strengthen communities and build a legacy of possibilities for generations to come."

"The true value of a network is not measured by the technology it carries, but by the lives it empowers, the opportunities it creates, and the trust it sustains. Beyond connectivity lies our greater responsibility— to transform human experiences, strengthen communities, and build a legacy of possibilities for generations to come."

CONNECT WITH PURPOSE | DELIVER WITH EXCELLENCE | EMPOWER PEOPLE | CREATE LASTING VALUE | BUILD A BRIGHTER TOMORROW
